PROFESSIONAL
EXPERIENCE

UI/UX Designer | 2022–2024

Metafic, India

- Designed and shipped 7+ digital products across web and mobile, collaborating end-to-end with developers, clients and fellow designers which led to 15% rise in user engagement.
- Built a reusable UI kit and design system that cut down project design and development time by an estimated 30% for the entire team.
- Conducted user interviews and usability tests, then synthesized insights into clear recommendations that informed design decisions.
- Worked in agile scrum teams, taking part in daily stand-ups and sprint planning to help cut product deliverytime by an average of 10%.

UI/UX Intern | 2021–2022

Metafic, India

- Helped create detailed style guides for 3 major client projects, ensuring 100% brand consistency across all their digital platforms and marketing materials.
- Created over 40 high-fidelity wireframes and interactive prototypes using Figma, which helped visualize user flows and test new product features effectively.
- Supported senior designers with user research tasks, helping to analyse feedback from user testing sessions to find key areas for design improvement.
